

CARING AND RESPONSIVE FOR 30 YEARS

EMERGENCY RESPONSE EXERCISE

Your emergency training needs are specific to you, the nature of your business, the environment in which you work, the equipment you operate and the personnel you work with. Since commencing operations in 1984 Westside Fire Services has positioned itself to be recognised as the industry leader in delivering emergency training, by utilizing the most highly regarded training team within Western Australia.

Our Training Team members are supported by some of the most innovative technological solutions within the Industry which aid in training delivery. Our staff have numerous years experience in the Emergency Response field which is supported by qualifications in safety, training, fire engineering and emergency management.

EMERGENCY RESPONSE EXERCISE

Our Emergency Response exercise is targeted towards the members of your sites Emergency Control Organisation (Warden Team) and is delivered in compliance with Australian Standard AS 3745 and your Emergency Response Procedures. The exercise has a strong focus on practising the skills learnt in Fire Warden Training and evacuating people in emergency situations. The exercise includes:

- ***Briefing of the Emergency Control Organisation (ECO)***
- ***Initiating the Simulated Emergency***
- ***Recording key information including timings***
- ***Ensuring all occupants Evacuate***
- ***Finalising the Exercise and re-setting of any Alarms***
- ***De-Briefing of the ECO***
- ***Providing a full report including any recommendations***

The exercise is delivered at your premises for the entire ECO. The exercise is practical based and the duration is 1 hour, depending upon the size of the site.
